***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,5-7,83 are rejected under 35 U.S.C. 102(b) as being anticipated by Nelson, et al (5655548).

Nelson, et al discloses a method for coronary revascularization including the steps of creating a bloodflow passageway that extends through a myocardial tissue between a chamber of the heart and a coronary vein such that the blood will flow from the chamber of the heart in a direction opposite normal venous flow into the coronary vein.

Claims 5-7,83,89, see column 8 lines 14+.

***Allowable Subject Matter***

Claims 84-88 and 90 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Please note, it appears that claim 85 should be dependent upon claim 84. Examiner has interpreted the claim as being dependent on claim 84. (The claim is worded so as to include the function of the side aperture that has antecedent support in claim 84 and not claim 83 from which it depends.)

***Response to Arguments***

Applicant's arguments with respect to the claim have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
